Dear Ms. Ash:

Thank you very much for your online message and letter. Thank you also for the set of personalized reusable hospital scrubs. I am grateful to you for your thoughtful gesture.

I commend everyone at Booth Centennial for winning the prestigious 2009 Green Health Care Award for Energy Efficiency by the Ontario Hospital Association and the Canadian Coalition for Green Health Care. Take pride in knowing that you have done much to support your member hospitals and long-term care facilities and to help improve services in an environmentally-friendly way.

Strong environmental protection is the foundation of the high quality of life and sustainable economic growth of our province. A successful strategy to address climate change requires a fundamental shift in how we do things. It requires that we rethink how we plan our cities, drive, heat our homes, use electricity, grow our food and manage our forests. Your efforts in helping to reduce the use of water, energy and other resources in the health sector will go a long way to help protect our environment, and inspire others to do the same.

Thank you again for writing. Please accept my best wishes for much ongoing success.

Yours truly,
