Booth Centennial Healthcare Linen Services

Dear Honourees:

I am pleased to extend my personal congratulations to all the management and staff at Booth Centennial Healthcare Linen Services on receiving the Ontario Hospital Association Green Health Care Award for Energy Efficiency.

This award honours your outstanding health care laundry and linen services for hospitals and long-term care facilities in the Greater Toronto Area. Through a “Green Team” you identified innovative water and energy reduction measures, which translate into cost savings and efficiencies that benefit both the health care system and the environment. Your innovation and environmental stewardship have distinguished you as a leader in Ontario’s health care community.

On behalf of the Government of Canada, please accept my sincere commendation. I hope that you will take pride in this well deserved recognition of your vital service to the community.

Sincerely,

The Rt. Hon. Stephen Harper, P.C., M.P.
Prime Minister of Canada
